INTRODUCTION

ESO and SIOP-Europe are pleased to announce the sixth Masterclass in Paediatric Oncology. This clinically-oriented educational programme has been designed for young paediatric oncologists who wish to improve their skills in clinical management of common childhood tumours. It is designed to offer a unique learning experience, providing practice-oriented training and the teaching sessions will focus on the application of the most recent research findings to clinical practice.

LEARNING OBJECTIVES

- Improve knowledge in the field
- Improve skills in dealing with cancer problems as a whole
- Improve knowledge of current clinical practice and state-of-the-art treatment

MAIN TOPICS

- Central nervous system tumours
- Neuroblastoma
- Soft-tissue sarcoma
- Bone tumours
- Wilms' tumour
- Rare tumours
- Acute Lymphoblastic Leukemia (ALL)

IDEAL MASTERCLASS CANDIDATE

- Age between 30 and 40 years
- 2-4 years' experience in paediatric oncology
- Involvement in scientific activities and clinical trials
- Fluency in English

CME ACCREDITATION AND CERTIFICATE

Application for CME recognition will be submitted to the Accreditation Council of Oncology in Europe (ACOE) and to the European Accreditation Council for Continuing Medical Education (EACCME), an institution of the European Union of Medical Specialists (UEMS). EACCME credits are recognised by the American Medical Association towards the Physician's Recognition Award (PRA).

Information on the status of the applications can be obtained from the organising secretariat.

Participants will receive their certificate of attendance via e-mail after on completion of the evaluation form.

APPLICATION DEADLINE: 15 MARCH 2016

Information, detailed programme and application form available at www.eso.net

PARTICIPATION

Admittance to the Masterclass is by competitive application. The successful applicants are granted free registration but the cost of half-board accommodation and transfer to the course venue is **EUR 700.-** for the period 11-16 June 2016 and travel will be covered by the participants.

All participants will be expected to reside at the course venue and their full participation is compulsory throughout the course.

The Masterclass will be taught entirely in English and fluency in English is necessary for admission.

HOW TO APPLY

Interested oncologists should apply online at www.eso.net providing:

- Letter describing motivation for attending the Masterclass
- Short CV (maximum 2 pages) describing recent clinical experience and list of any recent publications
- Supporting letter from Head of Department/Mentor
- Abstract with proposed presentation of a clinical case relating to one of the main themes of the Masterclass (central nervous system tumours, neuroblastoma, soft-tissue sarcoma, bone tumours or Wilms' tumour)

The abstract should be presented in the form of a grand-round clinical discussion rather than a publication report, and describe:

- Diagnostic considerations
- Treatment
- Outcome (follow-up)
- Up to three questions that the author proposes for discussion by the faculty and participants

Candidates should avoid the selection of very rare or unusual cases and try to find learning points from clinical situations more likely to be encountered in day to day practice.
